PROFILE

Graduate of the TBS Education Grande École Programme and the MSc in Artificial Intelligence & Business Analytics. Experienced in structuring and improving the quality of product data, as well as developing internal tools with Python, Streamlit, Excel and SQL. Able to translate business rules into automated controls and collaborate in an international environment.

SKILLS

Data analysis: Excel, Python (Pandas), SQL (MySQL, Spark SQL), R

Big Data and applications: PySpark, Streamlit, Flask, HTML, CSS

Data visualisation: Tableau, Power BI, Plotly

Cloud: Microsoft Azure (DP-100 exam passed)

ERP: Kingdee

PROFESSIONAL EXPERIENCE

Data Analyst | APEM (via ITT 360 GmbH) | 07/2025-09/2025

- Consolidated pricing data for more than 200 product series from Excel files into an internal management tool.
- Performed data quality and consistency checks, identified anomalies and worked with the team to correct them.
- Improved the reliability of data used to monitor pricing capabilities.

Consulting Engineer | APEM (via Rhapsody) | 02/2024-08/2024

- Reorganised and reclassified more than 200,000 product references into a new hierarchical structure using Excel.
- Applied product family and series rules to ensure classification accuracy.
- Coordinated data validation with Data and Product teams in France, the UK, the US and Japan to improve the reliability of the international product database.

Data Scientist | APEM | 09/2022-11/2023

- Developed and tested a multi-function internal application with Python, Pandas and Streamlit to recommend series, generate product references and reverse-decode existing references.
- Gathered rules from Sales and Product teams, then translated compatibility constraints into automated filters and controls.
- Identified and removed several thousand invalid configurations and supported internal testing of the functional version.

EDUCATION

MSc Artificial Intelligence & Business Analytics | TBS Education | 2022-2024 | Graduated with honours

Grande École Programme - Master's Degree | TBS Education | 2021-2024

Bachelor's Degree in Financial Management | Shanghai Lixin University | 2016-2020

Bachelor's Degree in French Language | Shanghai International Studies University | 2017-2020

PROJECTS

TBS Datathon 2023: fraud detection with Azure Machine Learning - Best Model Award

Distributed analysis with PySpark: RDD, DataFrame and Spark SQL applied to text and real-estate data

Student chatbot: end-to-end prototype with NLP, intent classification, Flask API and Streamlit interface

Real-estate analysis with Tableau: five years of transactions, six dashboards, mapping and forecasting

Air France-KLM: consulting on sustainable aviation, Generation Z and customer loyalty
